

Quality Assurance. From farm to shop.

QS. Quality scheme for food.

Brief instructions to check a location's eligibility of delivery in the QS Scheme

The daily updated eligibility of delivery of a location is saved in the QS database and it can be checked following different procedures.

Public scheme participant search

With the "Scheme Participant Search" button, the eligibility of delivery can be publicly checked on the web via the QS database. 1

Click on the "Scheme Participant Search" button

New to QS Initial registration 	Login User name Password Cogin Forgot password? Video: Forgot Password?	Check eligibility delivery	y of earch	Button "Scheme Participant Search"
Select a stage	Feed sector		۲	Select a stage
Enter search criteria, if	applicable			Enter search criteria
The "eligible to deliver are displayed.	production scope" / "not elig	ible to deliver producti	ion scope" is/	
Approved production scope	Non approved production scope	Constraint	Certification scheme	
pidlet rearing (2014)	pig production (2001)	inactive for pig production	QS	

If there is a constraint in the eligibility of delivery, the information is displayed, too.

The eligibility of delivery can be also checked through the interface

"Slaughterhouses/Scheme participant search". You will see the eligible or not eligible to deliver production scope(s), as well as a short text regarding the existing constraint, if applicable. For more information see (in German only):

https://www.q-s.de/qs-system/qs-datenbanken-schnittstellenbeschreibung.html

¹ The same applies for the non-public search, which is not available for all stages.

Quality Assurance. From farm to shop.

Recipients and suppliers lists (not available for all stages)

In the menu "Master data" under the menu items "Suppliers" and "Recipients" you have the possibility, to set up a list of your individual customers/suppliers, in order to check the status of their eligibility to deliver in the QS scheme.

Enter several locations in the recipients or suppliers lists at the same time: upload a CSV

csv

Several locations can be added **to the recipients or suppliers lists** at the same time by means of uploading a CSV file.

Create an Excel file with the following headlines (headings must be in **German**):

QS-STANDORTNUMMER	Produktionsart	NAME
	(optional)	optional
	(optional)	optional

Enter location number (QS-STANDORTNUMMER) and, if necessary, the production scope (Produktionsart). Adding the location name is optional.
